

## ABOUT THE CENTER FOR LEADERSHIP

Center for  
Leadership

**#1** in the U.S.  
*Chief Learning Officer*  
magazine's Learning in Practice  
organizations in 2024

### Research

At the core of our work is a dedication to research that challenges conventional thinking about leadership. We engage in ongoing studies to better understand the shifting leadership landscape and design solutions that are both timely and transformative.

**33** Interdisciplinary Faculty  
& Fellows

**16** International Dissertation  
Awards Given

### Engagement

Better leadership benefits everyone. We extend our commitment to the community through free, high-quality leadership events that connect participants with respected leaders across business, public service, philanthropy, and research.

**58** Community Partners

**138** Open Lectures

**52,000+** Subscribers &  
Followers

### Developmental Programs

Our programs aren't conventional leadership training—they are intentional, experience-driven learning journeys. We collaborate with leaders and organizations to create development experiences that are relevant, rigorous, and directly applicable. Drawing on multiple disciplines, we help participants build the skills and strategies they need for real-time leadership challenges.

**8,500+** Program Alumni

**391** Organizations  
Served

**303** Program Iterations

**10,000+** Person instruction  
hours per year

The Center for Leadership at FIU is a nationally recognized center for leadership research, development, and training, providing leaders and their team members with the competencies and business solutions that equip them to positively and effectively transform themselves and the organizations and units they lead. The Center continuously engages in research projects, the development and delivery of leadership programs, and community engagement initiatives to translate and apply the latest research in the development of high-impact and engaged leaders.
